

Government and politics summer task

Prepare a report on what is next for the two main political parties in the UK; the Labour Party and the Conservative Party.

You should focus on the following:

- What does the party stand for?
- Who is the current leader and how safe is their position?
- What is their party's view of Brexit?
- What current splits and disagreements are there within the party?
- What is your opinion of each party? Would you vote for them?

Suggested sources

The BBC website and national newspapers are a good place to start, but remember different media outlets have their own political agenda.

This should be presented in the form of a report. You could include pictures, graphs and cartoons as well as text. you should include a bibliography (a list of the sources you use) saying where you found the information from.

This should be ready for your first lesson.
