

Praise from
your teachers
for all your
hard work!

Mr Gardiner

As a department we just wanted to pass on the message that our Year 11s have been fantastic, in terms of their attitude generally towards their PPEs. Most have taken it really seriously and want to do well, they have also just been fab in classrooms during the exams (no arguments whatsoever about seating plans, great behaviour during the exams and all following instructions).

Mrs Westwood

The Year 11 Finance students have done really well with their Unit 1 Finance exam (rescheduled from April) that was sat in October, closely followed with Unit 2 at its usual time of late November. A number of students have also completed resits at other times due to self isolation. They have worked hard on revision and achieved some excellent results, despite the disruption and just wanted to say well done and keep it up for Unit 3!

Mr Walker

The students in both my Art and Photography classes are absolutely brilliant. They really are a delight to teach and I have been amazed at how resilient they have been this year. It has been particularly difficult for them in these practical subjects but they have been enterprising and creative in the ways in which they cope. They never moan or complain about the restrictions imposed on them in lessons due to the pandemic but just get on with it and make the best of the opportunities available. I am very proud of them all and feel privileged to be able to teach them.

Miss Briggs: French

You lovely lot never fail to blow me away; not only with your fantastic ability and skill, but with your perseverance, resilience and commitment. You are a dream to teach and marking your work is a real pleasure. You worked unbelievably hard during lockdown, especially on your speaking, and I am very, very proud of what you have achieved in just over a year!

Miss Cambio

I can't praise my Year 11 History class more. They show up every lesson keen to learn, focused and motivated to do well. They are just such a pleasure to teach.

They always attend after school revision sessions and really take the course and any guidance given seriously.

They act on feedback and a large majority complete additional questions on top of work set to push and challenge themselves.

I couldn't be prouder of a young, mature group of students. I will so sad to see them go at the end of this year.

Miss Poole

11D chemistry and 11B physics are both great fun and very hardworking - have a good holiday!

Mrs Chauhan

Year 11 have been amazing during their mock exams. They conducted themselves so well. They have been extremely committed to revision and preparation for their exams. Really lovely to see. May all the hard work pay off.

Miss Coe

All of year 11 that I am working with have all worked so hard preparing for their exams in the most difficult of circumstances. They have taken everything seriously and really value their education. Their speeches were the best group that I have heard.

Miss Bailey

I would like to praise my year 11 art class for their resilience during Covid. Art is a subject which requires students to adapt their thinking and not only have a skill, but be able to interpret what they've learnt and come up with something new. It is hard even with teacher help and guidance, and sitting in a room where your teacher can't touch your work or demonstrate new techniques can feel isolating and scary.

Many of my students have risen to the challenge, really embracing technology to actively seek help and advice, responding to their design briefs with courage and conviction. In such unprecedented times, I am extremely proud of the mature way many have handled themselves and wish them much luck in their upcoming PPE exam next week.

Mrs Sawbridge

Tabbie, Michael, Josh, Damian, George, Tyler, Finn, Amy and Sasha are always focused, on task, and work really hard. They are fantastic students. Jack is the most improved student this year.

Mr Efunkoya (Science)

I am new to CCS, but the attitude and behaviour of the year 11 students I have encountered has been exceptional. CCS is only the 3rd school that I have been to in Northampton overall. I don't make these comments lightly.

Their behaviour has been pretty much on par with a few of the good schools that I have been in about 5 years as a supply teacher/cover supervisor.

They listen, they are polite and they always make an effort to do any given work assigned to them in class.

Miss Vessey: English

Special mention to Isabelle and Grace, for diligence, resilience and application.

Miss Rai

Shout out to all year 11s, you have worked so hard; showing commitment and resilience. You've not had it easy this year but you have risen to the challenge and done me proud!

Miss Unsworth: 11DSp1

On the whole, the class worked so hard during lockdown but, since September the whole class have got their heads down and pushed themselves every week. This class is a pleasure to teach and are the only class that I teach where students say thank you at the end of every lesson- this is always appreciated. It's been a bumpy road to the GCSE but we are getting there and I have high hopes for them for 2021. Have a well deserved & relaxing time with your families this Christmas.

Mrs Mitton

11B Spanish are an outstanding year 11 group and have worked diligently throughout lockdown and since they have returned in September. They are a delight to teach. It has been very rewarding to see how they have developed and although sometimes things may not go to plan, we are learning that even then, this is just a form of feedback and allows us to improve and become stronger and more resilient. They have completed extra work over the summer holidays which has made a huge impact on our coverage of course content this year and will mean they have very strong foundations for their examinations next year.

Mr Scott: 11A & 11C

They have been fab since returning in September. There are lots of students with a really good attitude and it's a pleasure to teach them all. Special mention to Sam for his commitment when in isolation as well as asking for further exam practice. I have also been impressed with Leo's work in class and with homework - great understanding of the work covered and application of it in his own work. But well done to all of you!

Mrs Norman

Well Done 11X4. You have worked so hard for these PPEs. I love teaching you and you deserve good GCSE grades as you have put the work in. Enjoy the holiday and have a lovely Christmas. See you in the New Year.

Miss McInerney

My Year 11s for the way they have settled back into school and for never failing to make me smile. I am proud of their resilience and their determination to succeed.

Mrs Page

Some excellent focus in my GCSE History class since the start of the academic year. Keep up the good work! Special mentions to Louisa Hannah, Esha, Kirsten, Nadine and Amelia.

Mrs Wittich-Jackson

11B group - so much fun to teach. Their nutrition admissions may haunt me forever! Great improvements from Jake C. He's really impressed me this year so far. Thoroughly enjoy teaching all of them! They are cheeky but adorable!

11A group - an amazing group of students. They are really 'on-it' with their contributions in lessons. So much fun to be with and teach. Great worth ethic. Also really proud of their support for each other this term. Big shout out to Irvin and Izzy who seem to wipe the floor with the others when we do Quizlet!

Mr Colman

I am delighted with my GCSE PE class. They work hard in lessons, support each other, and most importantly pretend to laugh at my jokes. They are a pleasure to teach!

Achievement points podium!

Very well done
year 1 1; we are
super proud of
you!
